Development

The idea of Emote-ping

Development

Story time

What I learned after seeing my family for the first time in 17 years!

Overall Idea

To distinguish emotions & notify those close to you about your situation!

Examples being:

- ☐ Anger
- ☐ Anxiety
- ☐ Fear
- ☐ Happiness
- ☐ Sadness
- ☐ Surprised!

Development (Team Song & Logo)

02

What is it?

Day to day usage!

What is it?

What to expect!

- iOS application with a smart watch extension.
- Giving three most likely emotions

The Point:

- ☐ To keep family and friends in the loop about events in your life.

03

Solution!

Progress made on application!

Solution!

What is Complete

Currently we have completed the predictions of the top 3 most probable emotions.

Future Works

Connecting Frontend
Improvements on Emotion
Predictions
Expanding to WearOS

Potential Features

Timeline
Specifying One Emotion
Instant Messaging

04

Demo Time

Zach's tutorial!

“When you give joy to other people, you get 100% more joy in return. You should give a good thought to happiness that you can give out...”

—**Eleanor Roosevelt**

“Cuando das alegría a otras personas, obtienes más alegría a cambio. Deberías pensar bien en la felicidad que puedes dar...”

A Special Thank YOU!
